Summary

Detail-oriented and highly organized individual seeking the position of Data Entry Operator. Bringing strong typing skills, proficiency in data management software, and exceptional attention to detail to ensure accurate and efficient data entry. Eager to contribute to a dynamic team while leveraging my ability to maintain confidentiality and handle high volumes of information with precision.

Experience

Web Developer

Voldebug Innovations Pvt. Ltd. • Vadodara, Gujarat
01/2024 - 05/2024
Utilized React.js to create interactive and responsive user interfaces.
Developed and maintained components for a seamless user experience.
Implemented state management using Redux to streamline data flow.
Backend Development:
Worked with Express and Node.js to build robust backend services.
Designed and developed RESTful, APIs to support frontend applications.
Managed databases and ensured efficient data retrieval and storage.
Key Learnings:
Deepened understanding of full-stack development processes.
Acquired skills in managing version control systems like Git.
Enhanced problem-solving abilities through hands-on project work.

Graphic Designer

Diosa Forever • Vadodara, Gujarat
06/2023 - 09/2023
I experienced firsthand the dynamic world of real-time business scenarios. This opportunity not Graphic Designer only honed my design skills but also expanded my understanding of Diosa Forever marketing and the intricacies of running Facebook ads. Immersed in a professional environment, I learned how to create compelling visuals that align with strategic marketing goals. This experience was invaluable in bridging the gap between theoretical knowledge and practical application, providing me with a comprehensive skill set that blends creativity with marketing acumen.
